

EDUCATION

- **University of Birmingham** Birmingham, UK
M.Sci Mathematics and Computer Science *September 2024 – June 2028*
- **Hereford, Ludlow, and North Shropshire College** Ludlow, Shropshire, UK
4 A Levels grades A - C *September 2022 – July 2024*
 - Achieved A, A, B, C in Computer Science, Graphics Design, Mathematics, and Further Mathematics
 - **Academic awards:** Computer Science - for academic excellence in the aid of others. Graphics Design - for great resilience, research, and quality of work.
- **Church Stretton Secondary School** Church Stretton, Shropshire, UK
GCSE's: 3 grades 9, 3 grade 8 including Computer Science, 2 grade 7, and 1 grade 5 *September 2017 – July 2022*

EXPERIENCE

- **Border Computer Services** Ludlow, Shropshire, UK
Student Work Experience *July 2023*
 - **IT Support Services:** Worked alongside their technicians to (dis)assemble laptops and desktop computers, handle data retrieval/restoration, and build customer websites. Additionally, helped deal with malware and virus' on customer computers.
- **R P Jones and Son (Family Business)** Craven Arms, Shropshire, UK
Employee at Family Business *2017 - present*
 - **Farm:** Worked on the family farm, looking after over 600 animals - Cattle, Calves, Sheep, and Lambs - alongside other tasks such as operating farm machinery to aid in the summer harvest of over 150 acres of wheat, barley, and corn.
 - **Timber Yard:** Worked at the family timber yard and Lorry park. Dealing with customers on the phone and in person in the office, delivering bags of kindling and logs. Weighing heavy machinery (e.g. HGV's, tractors etc) on the Weighbridge, and moving HGV's round the yard - as I have my full C + E driving license. Also operating and maintain the CCTV server and infrastructure for the worksite.
 - **Website Production:** Created the websites for the farm the Timber Yard. Both websites were produced in WordPress as was required by the business operators, and have led to a 30% increase in sales and 46% increase in inquiries.
- **AFNOM - UOB's ethical Hacking society** Birmingham, UK
Member *September 2024 - present*
Committee Member *May 2026 - present*
 - **CTF competitions:** Competed in several CTFs even up to high level competitions with the society, such as; PWNED 7 quallifiers, Hack The Box (HTB) Uni CTF 24, HTB Uni CTF 25, HTB Cyber Apocalypse (99th Globally), AFNOM WhatTheCTF 26 (3rd place), CSS Birminghamhack CTF (2nd place).
 - **Areas focused on:** Have completed challenges in a variety of areas such as cryptography, forensics, and open-source intelligence, but with a particular focus on steganography - split across a plethora of image and audio based challenges.

PROJECTS

- **Text Based Adventure Game (Java):**
 - Developed a text-based game engine in Java with inventory management, real-time map generation, and puzzle-based progression.
 - Created an alternate version that parses external .txt files for dynamic level and interaction data, eliminating the need for hard-coded game content.
- **Educational Platformer Game (Python and Pygame):**
 - Built an interactive platformer in Pygame where players navigate levels while answering customizable multiple-choice questions to progress.
 - Implemented a custom map maker and .json-based sharing system, enabling reusable content across subjects and users.
- **Frontier Tech Hackathon with Solana - Industrial vehicle tracker:**
 - Developed blockchain-based vehicle tracking system for real-time monitoring and verification of high-value freight logistics.
 - Used the blockchain's immutability to prevent falsification of location records and enable cargo theft detection.
 - Consulted with national freight and logistics operators to inform system design.
 - Deployed prototype on a dedicated server.

SKILLS

- **Programming Languages & Frameworks:** Java (SpringBoot), Python (Pygame, Angular), Haskell, SQL (MySQL & PostgreSQL).
- **Web:** HTML, CSS, JavaScript, Wordpress.
- **Cyber Security:** Steganography (audio and image), Open-Source Intelligence, Cryptography, Forensic Analysis, Penetration Testing and Security Auditing.
- **Tools:** LaTeX, Git, Docker, Audacity, Sonic Visualiser.
